July 2008

## **NEXT DAY SERVICE FOR BUILDING INSPECTIONS**

As of July 1, 2008 our next day service for building inspections is changing.

To obtain an inspection of your building permit authorized project, requests or notifications for building, plumbing and heating inspections may be requested up to 7:30 a.m. the same day of the inspection.

Inspection requests are conducted on a first-come, first-serve basis. To ensure your inspection request is fulfilled on the day requested, be sure to make your request as soon as you know the construction is ready for inspection. Please note that the Ontario Building Code requires all requests for building inspections to be conducted within 48 hours of receiving the request. We will accommodate any same day inspection requests where our resources permit.

Requests for fire protection systems will require at least 48 hours notice in order to schedule the inspection with the multi-parties involved.

The optional a.m. or p.m. time is offered to help you co-ordinate your construction schedule. However, sometimes due to the number of requests received for the day, we may not be able to accommodate a.m. or p.m. requests.

To request an inspection please call the Permit Inspection Request Line at (905) 475-4850. For more information please visit our web site at [markham.ca/building](http://markham.ca/building).

Thank you,

Anthony Boyko  
Manager, Building Code Inspections
